Step 1

Background. In this first step we need to create a colourful background. So create this by laying each of the colours directly onto the canvas in the order below and then blend them as smoothly as you can with the small Gesso Brush. While this paint is still wet sprinkle glitter into it, then let this dry.

Order of colours:

Ultramarine Blue
Purple
Scarlet Red
Yellow Orange
Lemon Yellow
Light Green

For the smooth blending of colours give the paint a fine spray with water. Keep the brush moving quickly and don't go over partially dry paint.

JOES JEM

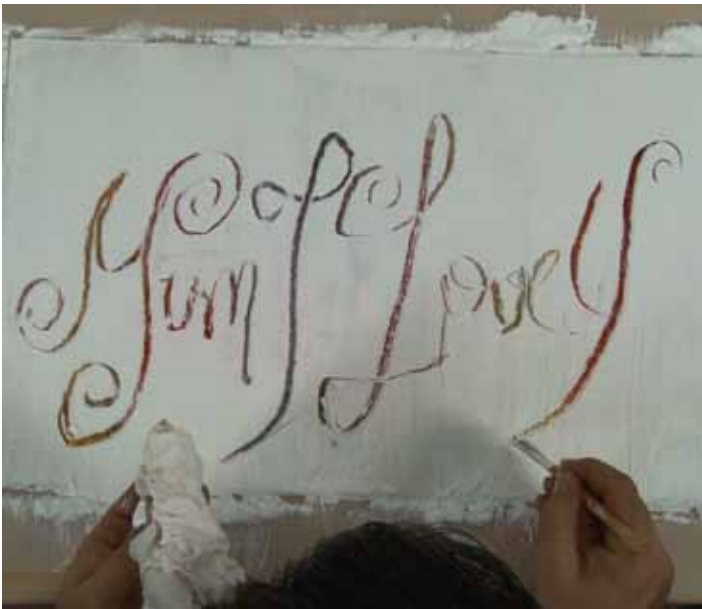

Step 2

Applying the Gesso. With the large gesso brush lay in a consistent coat over the entire surface.

Step 3

Scratching in the wording. Refer to the image of the script wording on the last page of this PDF. With a modelling tool, scrape the wording in as well as you can. Start from the left moving to the right.

Step 4

Applying the Glitter. While the gesso is still wet, sprinkle glitter onto it. Let this dry.
