

How to paint a kids mirror

Painting

Beginner

For ages 12+

...Hello and welcome to another lesson.
Today we'll be painting a couple of
mirrors with Mont Marte glass paint...

What we used:

PMHS0015	Mont Marte Glass Paint 12 pce 4ml
MPN0034	Mont Marte Pastel Pencils 12 pce
BMHS0009	Mont Marte Gallery Series Brush Set
AMPL0001	Mont Marte Round Plastic Palitte 17 cm
MAXX0019	Mont Marte Brush Washer Plastic

Water
Mirrors

Step 1. Drawing the Dinosaur

Tape the PDF image of the dinosaur to a window face down and trace the outline on to the back of the paper with a pastel pencil.

Step 2. Transferring the Image on to the mirror

Tape the image tracing side down on to the mirror in the desired position. With the pastel pencil cover the entire drawing. This will transfer the tracing onto the mirror. Now remove the paper.

Step 3. Painting the body

Squeeze out the colours you want to use on to a Round plastic palette. I am using Viridian, Light Green, Crimson Red, Orange and Black. First paint the body in Viridian. Then paint the belly with Light Green. Use a small flat for this stage.

Step 4. Adding some warmth

Once the body is painted in apply some Orange to the spikes on the back and tail. Then paint the tongue in with Crimson. Use the fine round for this stage.

Step 5. Painting on the keyline

Now let's bring this all together and apply Black paint over the keylines. Use the finest brush in the set for this keylining.

Step 1. Transferring the image on to the mirror
Follow the same tracing steps and the transferal process outlined in the dinosaur project.

Step 2. Painting the Fairy
Squeeze out some Orange, Viridian Green, Yellow and Crimson onto the round plastic palette. Create a skin colour from 1 part Crimson to 2 parts Orange, give them a mix and paint in the face and body. Paint the hair Yellow. Then paint the dress in with Crimson and her shoes and belt with Viridian Green.

Step 3. Adding the keyline
Squeeze out some Black into the round plastic palette. With the finest brush in the set retrace all the line work with the Black paint.

Step 4. Adding the name
Above the image of the fairy you will see she is holding a banner, this is where you can write a name if you want.

I hope you enjoyed this fun little crafty lesson and if you do decide to try it, I hope they work out really well. Thanks for tuning in and...

*...until next time
Keep on painting*

Glass paint is quite translucent, if you want a stronger colour give it a second coat
